

Dear Partners:

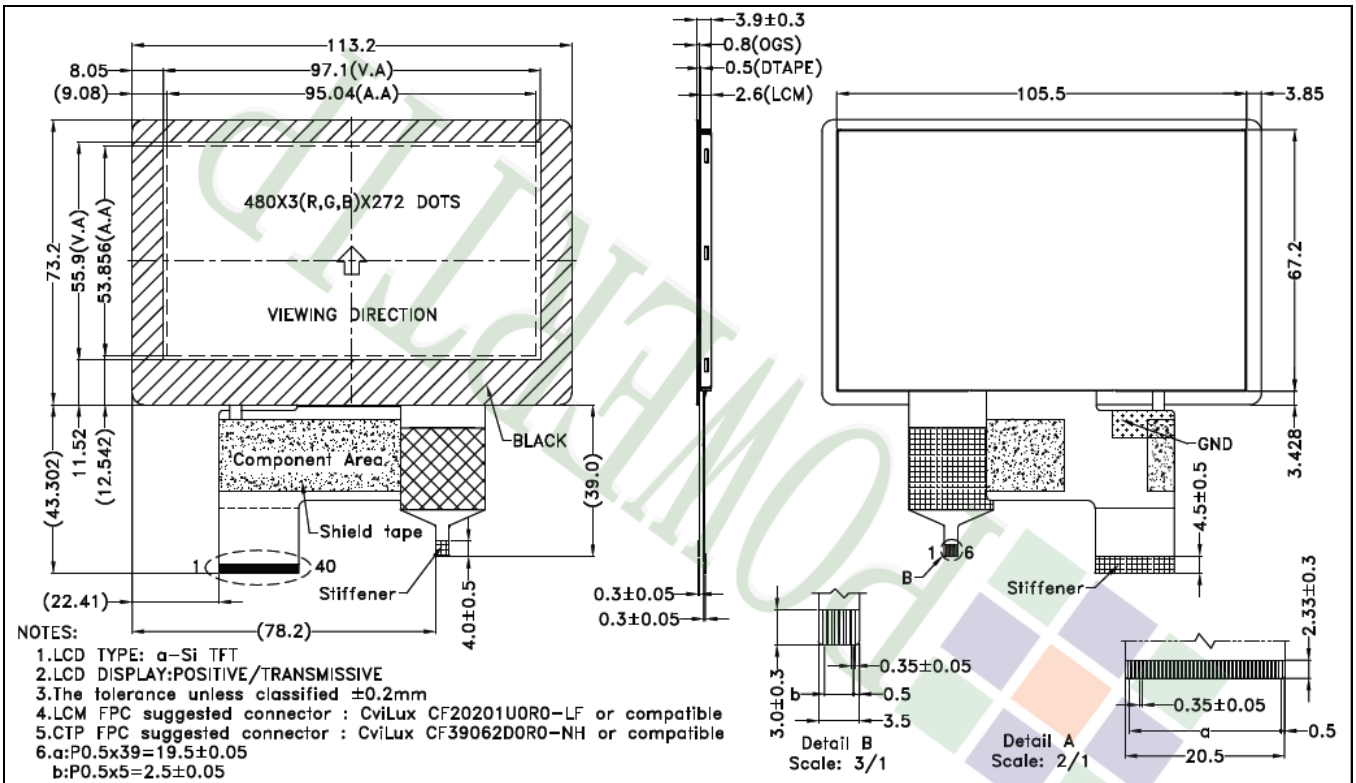

Summer is coming, and we are preparing to attend the exhibition “ Touch Taiwan 2015” dated on Aug. 26 (Mon)~Aug.28 (Fri). You are more than welcomed to visit our booth. We will introduce touch solution (inner STN touch, touch pad) used in white goods, control key pad and security application.

As we will have 1st half year equipment maintenance scheduled by end of July, front end process will be stopped for one entire week. Please review and confirm asap for September order in order to meet end customer’s delivery request.

- Introduce character type module 20*2, 20*4 in VA type, OLED-like product.
Part number: NPC2002WRP-BWA-I (white LED Backlight)
NPC2004WRP-AWA-I (white LED Backlight)
Please contact with your contact window for more details.
- 2.8” TFT with OGS – Part no: PH240320T063-LAC
TFT controller IC : Sitronix ST7789V
Touch panel controller IC : Sitronix ST1624, I2C

- 4.3" TFT with OGS – Part no. PH480272T-006-IAC02
 Cost effective solution for 4.3" capacitive touch panel LCD module.
 TFT IC : Sitronix ST7282-G4
 Touch panel controller IC : Sitronix ST1633i, I2C

- 5" TFT with G+G capacitive touch PH800480T018-IBC01
