

Dear Partners:

PowerTip is introducing a 5" NFC display P05D00141-00. Featuring IPS panel, MIPI interface, 500 nits 20K MTBF.

This item integrates the display and antenna into a single compact solution as an NFC display. By placing the NFC antenna on the back side of the display, the overall module size of finished products can be reduced, helping optimize product mechanical design and lower manufacturing costs.

Preferrable application for access control system, vending machines, card reader and contactless public transport system.
